

Setting up Nitrous.IO

for Anchorage Programming Workshop's
Intro to the Command Line Workshop

1) Go to nitrous.io

2) Make an account

Create a Python
Development Box in 60 seconds.

Code on your box in the cloud via our [Web IDE](#), your favorite [Desktop Editor](#),
or our [Chrome application](#). Share boxes and code together right in your
browser.

🟢 my-awesome-box is **running** ⚡ 5 / 155

➡ Okay, Take Me to my Box!

Look at the bottom of the screen:

Click the  to toggle the console to full-screen

**Now you have your very own command
line interface!**

You can't break it.

(OK, you CAN, but it won't
really hurt anything if you do.)
